Financial Assistance Mechanism: Cooperative Agreement

Substantial Involvement by CDC: This is a cooperative agreement and CDC will have substantial programmatic involvement after the award is made. Substantial involvement is in addition to all post-award monitoring, technical assistance, and performance reviews undertaken in the normal course of stewardship of federal funds.

CDC program staff will assist, coordinate, or participate in carrying out effort under the award, and recipients agree to the responsibilities therein, as detailed in the NOFO.

Substantial involvement means that the recipient can expect federal programmatic partnership in carrying out the effort under the award. The CDC program will work in partnership with the recipient to ensure the success of the cooperative agreement by:

- Providing technical assistance to ensure that questionnaire modifications, sample selection, survey administration, and data analysis and reporting are consistent with the expectations outlined in the *Handbook for Conducting Youth Risk Behavior Surveys and the Handbook for Conducting School Health Profiles*;
- Supporting recipients in implementing cooperative agreement requirements and meeting program outcomes;
- Providing hands-on technical assistance to revise annual work plans;
- Providing scientific subject matter expertise and resources;
- Collaborating with recipients to develop and implement evaluation and measurement plans that align with the CDC evaluation activities and providing technical assistance on evaluation and performance measurement plans;

- Overseeing a Federal contract to provide evaluation and evaluation technical assistance support and continuing education on content, professional development, technical assistance, and follow-up support;
- Using webinars and social media to communicate and share resources;
- Participating in meetings, conference calls, and working groups to achieve outcomes
- Providing programmatic consultation, expertise, and resources;
- Facilitating communication and program linkages with other CDC programs and Federal agencies, mainly CDC's Division of HIV/AIDS Prevention (DHAP), CDC's Division of STD Prevention (DSTDP), and CDC's Division of Reproductive Health; the Department of Health and Human Services' Office of Adolescent Health and Administration for Children and Families' Family and Youth Services Bureau; and the U.S. Department of Education;
- Expanding opportunities to partner with DHAP and DSTDP to achieve adolescent outcomes;
- Providing technical expertise to other CDC programs and Federal agencies on how schools work and how to work with schools to implement adolescent sexual health activities;
- Translating and disseminating lessons learned on best practices identified;
- Collecting state and local organization capacity data to assist in training and technical assistance plans.

Budget Revision Requirement: By **September 1, 2022** the recipient must submit a revised budget with a narrative justification; Component 2: Recipient's contract with the Center for Supportive Schools does not align with the work plan and budget itemization not clearly justified. Failure to submit the required information in a timely manner may adversely affect the future funding of this project. If the information cannot be provided by the due date, you are required to contact the GMS/GMO identified in the CDC Staff Contacts section of this notice before the due date.

Expanded Authority: The recipient is permitted the following expanded authority in the administration of the award.

- Carryover of unobligated balances from one budget period to a subsequent budget period. Unobligated funds may be used for purposes within the scope of the project as originally approved. Recipients will report use, or intended use, of unobligated funds in Section 12 "Remarks" of the annual Federal Financial Report. If the GMO determines that some or all of the unobligated funds are not necessary to complete the project, the GMO may restrict the recipient's authority to automatically carry over unobligated balances in the future, use the balance to reduce or offset CDC funding for a subsequent budget period, or use a combination of these actions.

Program Income: Any program income generated under this grant or cooperative agreement will be used in accordance with the Addition alternative.

Addition alternative: Under this alternative, program income is added to the funds committed to the project/program and is used to further eligible project/program objectives.

Note: The disposition of program income must have written prior approval from the GMO.
